#### Electronic invoice processing - coming to the point

On April 21, the OXSEED forum has taken place on our premises. All attendees coming from eastern Westphalia to Bielefeld were interested in learning about the possibilities of optimizing invoice management. "The meeting was informative and fascinating! Keeping the group of participants small made the exchange of experience very lively." We are happy about the positive feedback and we are now looking forward to the next thrilling OXSEED Forum taking place in Stuttgart! [... for more information please click here...](#)

### CUSTOMER REPORTS

#### OXSEED implements E-Invoicing for the KATAG AG

Europe's largest service provider for fashion houses uses OXSEED as a platform for electronic invoice management. In their role as a central adjuster, the KATAG AG have been using a paper-bound invoice handling process throughout their past which incurred the processing and mailing of about 600 kilograms of paper per day. The aim of the project with the OXSEED AG was to make the exchange of delivery and invoice information between deliverers, the KATAG, and their connected clients more cost efficient. [...for more information on the opportunities read on...](#)

Ladies and Gentlemen,

April showers bring May flowers! Moreover, much has changed during the last 25 years – especially in the IT industry. When we look back to our own turbulent past, we see that exactly this type of change and innovation has always been fascinating for us. Starting as a producer of custom software and now acting as a pioneer in the Software as a Service market segment, we have always been at the forefront.

Thanks to the various opportunities offered by the age of the Internet, we can now offer to you first-class cloud services for your document management. Therefore, we are looking forward to present to you the latest developments at the OXCHANGE taking place in Berlin this year. From September 30 to October 1, 2011, we shall meet in Grand Hotel Esplanade with our customers, partners, and with those interested to discuss the latest trends and news.

Discover the next dimension of enterprise software!

Marcus Hartmann

### OXSEED presents itself at the transport logistic in Munich

The transport logistic is the world's largest and most important trade show for the logistics industry. For this reason, the OXSEED logistics will present itself once again this year at the Stand A5.105/106. Our optimized solutions simplify the daily work especially for logistic companies and bring about enormous cost savings. We would like to present these opportunities to you during the trade show! A visit is worthwhile! [...you can find more information here...](#)

### OXSEED in the Asperado Lounge at the IT-Profits in Berlin

We are proud to announce our first presence at the IT-Profits in Berlin from May 11 to 12. A new and exclusive offering of the IT-Profits is the Asperado Lounge: Visitors of this business matching event have the opportunity to learn about the topic cloud computing through the counseling advice given by the Asperado GmbH, an independent and officially affiliated institute of SRH University of Applied Sciences Berlin, and to exchange ideas directly and in live with selected cloud computing providers. Acting as a selected partner, OXSEED will also provide counseling services to discuss the business challenges and the integration of cloud solutions with your business processes. Visit us in the Asperado Lounge! [...learn more from first-hand experience...](#)

### The BIT Gruppe uses AFP2web for more powerful software

Since last year, OXSEED has been working together with the BIT Gruppe. The partnership has resulted from a request by a leading insurance company belonging to the customer base of BIT. This company wanted to facilitate the communication with their insurance customers by moving the previous standard postal correspondence to communication via the Internet. ### Electronic invoice processing – what is the payoff?

Many companies look for a sustainable cost reduction, the acceleration of processes, and for an improvement of data quality. In this context, the migration to OXSEED Invoices, that is, the move towards electronic invoice processing, offers a significant potential for cost saving. The question is: What is the potential for your company? You can find out by using the OXSEED Potential Analysis to discover the routes and the processing times needed for the manual invoice processing in your company and to find out where efficiency can be improved. The goal of the potential analysis is to provide to you a basis for making a knowledgeable decision on how to optimize your invoice management. [...read more about the OXSEED Potential Analysis...](#)

## OXSEED IN GENERAL

### OXSEED looks back on an exceptional presentation at the Cebit

Once again this year, OXSEED was present with a stand at the world's most import IT tradeshow. Acting as one of the pioneers in the field of cloud computing, we could advise the interested audience on this year's CeBbit motto "Work and Life in a Cloud" and we also held successful business talks with our customers. Furthermore, to give pupils and students the opportunity to visit this year's Cebit and to gather information on the latest trends of the IT landscape, the OXSEED team sponsored entry tickets for about 200 pupils and students. [... continue reading ...](#)
